

## Jaquar wins the Red Dot Award

With its flowing forms inspired by the natural world, the iconic tap Tailwater, by the Italian-London studio DanelonMeroni for Artize, won the Red Dot Award 2018. A jury motivation: "The product's top quality and innovative power". The result of technological know-how by the Jaquar luxury brand, an Indian company and leader in the sector, Tailwater's shape resembles a bird resting on the rim of a pool. The lever and lip are joined in a single form that makes it easy to use. The body expands at the base to ensure stability. The tail acts like a mixer lever. [www.jaquar.com](http://www.jaquar.com)
